

## HCBOX – HEALTH CARE BOX

**SEQUIAM HEALTH CARE BOX** with **BIOCARETRACK** software was specifically developed for the home health-care market and allows providers to verify health care visits, track treatments and eliminate fraud. According to the National Association of Home Health Care, there are over 7.6 million Americans requiring home health-care in 2005. This is a large market and growing larger each day as the baby boomer generation grows older. Estimates of healthcare fraud exceed \$12.1 billion per year. **SEQUIAM'S HEALTH CARE BOX** with **BIOCARE-TRACK** is designed to help defeat fraud in the home healthcare market.

### TECHNICAL INFORMATION:

- Highly accurate fingerprint sensor
- "ARM" processor
- Internal Modem
- RJ-45 Ethernet or RS-232 connections
- BioCareTrack software
